PROFILE

A creative thinker with a strong passion for visual storytelling, brand consistency, and clean design. With a robust foundation in graphic design and over 20 years of hands-on experience (including freelance and professional projects), I bring an exceptional blend of traditional and digital skills to craft impactful visuals across web, print and social media platforms.

EXPERIENCE

Senior IT & Design Specialist -Indian Air Force — 2008–2025

- Led the design and development of internal communication portals such as MES Complaint Cell, BCR Tracker, and Inventory Management Systems.
- Created and maintained digital platforms like the IAF Logistics Blog, Logistics Quiz Portal and digital editions of key IAF publications.
- Designed and published the official IAF Logistics History Book and Tenets of Logistics, ensuring high visual standards and branding consistency.
- Executed mission-critical design solutions including radar screen mirroring using DVR integration for strategic exercises.
- Administered over 500+ systems, managed IT procurements, and led infrastructure deployments including CAN (Campus Area Network) project.

Sr. Social Media Consultant & Web Designer ZION Group — 2018–2025

- Developed and maintained dynamic websites for various ZION Group businesses including Zion Express Cargo, Turner India Logistics and The Zion Hotel (Shimla).
- Designed logos, banners, and comprehensive branding kits for digital and print media.
- Led social media content creation, campaigns, and promotional activities for Facebook, Instagram, and other platforms.
- Coordinated promotional visual campaigns for events, marketing offers and internal communications.
- Produced brochures, menus, flyers and visual assets for digital advertising and offline use.
- Consulted on user experience improvements and UI/UX design across multiple platforms.

Founder & Lead Visual Designer San Solutions — 2023–Present

- Created brand identities, websites, and digital campaigns for clients in hospitality, logistics, healthcare and education.
- Designed logos, banners, brochures, social media creatives and book publications.
- Developed engaging UIs and interactive websites using HTML, CSS, PHP and JS.
- Provided creative consultancy and branding solutions for multiple startups.
